Professional Summary

In terms of my experience as a live-in nanny, I have dedicated myself to caring for children of all ages, ranging from newborns to 12 years old, for the past 12 years. I began my childcare journey with newborns, and I have had the privilege of helping and watching them grow into curious 12-year-olds who love life and everything around them. As a seasoned nanny, I have developed a unique set of skills with a lapse of time that make me an invaluable asset to any family who wants to hire a compassionate nanny for their child.

Professional Experience

- I am fluent in English, and a non-smoker with strong communication skills so that I can ensure seamless interactions with both parents and children because clear communication is essential in my job.
- My background work includes working with a kosher family which has helped me develop my ability and adaptability to remain calm in difficult situations as the family was a bit strict when it came to their children and their upbringing.

- Among all I have dealt with, I am known for my energy and creativity in planning engaging activities for children, making me both professional and trustworthy for children.
- Planning engaging activities is my strong point as I infuse creativity and boundless energy into each day, from arts and crafts to outdoor adventures especially designed for children based on their age group.
- I also prioritize the health and well-being of the little ones in my care by maintaining a smoke-free environment. I understand that families have entrusted me with their most precious treasures and I have consistently upheld their trust through reliability and professionalism.

Skills

- Childcare and development
- Non-smoker
- Fluent in English
- Strong communication skills
- Meal preparation and nutrition
- Activity planning and execution
- Adaptability and problem-solving
- Reliable and professional

Additional Experience

- As a live-in nanny for 12 years, my experience with an incredible family and their three children – ages 5, 7, and 12, who have now become like my own has helped me become a kind and compassionate individual.
- Providing attentive care, ensuring their safety, cooking wholesome meals for the entire family, keeping children's routines on track from wake-up calls to bedtime stories, preparing delicious lunches to fuel children's adventures, and maintaining common areas are a little glimpse into my daily responsibilities.

I am sure that in this heartwarming journey, I've become not just a nanny but a cherished part of children's lives, a role that I embrace with love and dedication.
